G.O. NO. 142 ~~Food and Agriculture~~.

Dated 23rd January 1950.

[Despatch Abstract.]

Public Services — Civil Supplies Department — Persons from Agency areas — preferential treatment in making appointments — Orders — Issued.

Opy to Mysore

PUBLIC SERVICES - Civil Supplies Department - Persons from Agency areas - Preferential treatment - in making appointments - Orders - Issued.

o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o-o

G.O. M.S. No. 142 Food & Agriculture Dated 23--1--50.

The Government have examined in consultation with the Heads of Departments, the question as to what concessions should be granted to persons belonging to the Agency tribes in this Province. They consider that some preferential treatment should be given to qualified persons belonging to the agency tribes in the matter of appointments to various services. It is also considered that as the member of suitable and qualified persons among the hill tribes will continue to be small for a long time to come the grant of preferential treatment to these tribes, in the matter of appointment to Government jobs in the agency tracts will not result in unjust treatment of more advanced communities. His Excellency the Governor of Madras therefore directs that in future while making appointments to the various posts in the civil supplies department, in the Agency areas, preference should be given to members of Agency tribes having in mind the following;

(i) Until further orders if a member of the hill side has the prescribed or necessary qualification, he should have an absolute preference for government jobs in Agency tracts over members of other communites;

(ii) Educational and Technical qualifications need not be lowered - relaxation being considered only in exceptional cases on merits of each case;

(iii) Restrictions with regard to age may be relaxed freely if the applicant is otherwise fit and suitable.

(BY ORDER).

Extract of notes of Public (Misc) in file regarding the preferential treatment to be given to the tribals in the agency in the matter of appointment to government services.

****

The proposal in this file relates to the preferential treatment to be given to the tribes men in the Agency area in the matter of appointment to various services. In connection with the formulation of a long term plan for the development of the Agency tracts the Agent to Government, Visakhapatnam, has suggested that it will be desirable to offer employment to agency students who achieve a certain standard of literacy to serve as stimulus both to parents and to the public. The suggestion was examined in consultation with the Departments of the Secretariat and it is considered that provision for preferential treatment for the Agency tribes in the matter of recruitment may be made in respect of the posts mentioned in column (1) below:

Cooperative subordinate service.	Development.
Veterinary subordinate service.	
Department of Industries and Commerce (Sericultural section)	
Madras Public Health Subordinate Service. (Vaccinators, Laboratory Attendants) Field Assistants + Lab. Asstts.	M.& P.H.
Traceers and Transport overseers.	
Madras Highway Engineering subordinate service (Rules) NOT ISSUED: But rules providing such concessions may be included.)	P.W.D.

2. In addition to the services above mentioned, the Madras Ministerial Service seems to be a field suitable for the employment of candidates from among the Agency people and provision may be made for preferential treatment to be given to qualified persons belonging to Agency tribes for recruitment to the Madras Ministerial Service Posts.

3. Additional Secretary has suggested that, frpm the point of view of the advancement of the tr what is even more important that their fair

representation in the services is their appointment to posts in nation-building departments like Education, Public Health (particularly anti-malarial staff), Agriculture, Animal Husbandry cooperation and Forests, and that their participation in the activities of these departments is the best and most effective form of propaganda for the uplift of the tribes.

4. As the number of suitable and qualified persons among the hill tribes will continue to be small for a long time to come, the grant of preferential treatment to these tribes in the matter of appointment to government jobs in the Agency tracts will not result in any unjust treatment of more advanced communities.

5. It is therefore considered that it may be laid down (i) that, until further orders, if a member of a hill tribe has the prescribed or necessary educational or technical qualifications, he should have an absolute preference for government jobs in the Agency tracts over member of other communities. (ii) that educational and technical qualifications need not be lowered - relaxation of the prescribed qualification being considered on the merits of each individual case which is recommended; and (iii) that restriction with regard to age may be relaxed freely if the applicant concerned is reported to be otherwise fit and suitable

6. It is proposed (i) to ask the departments of the secretariat to take necessary action to accord preferential treatment to Agency tribes in the matter of appointment to posts mentioned in paragraph 1 above and to amend the special rules, whereever considered necessary, and (ii) to ask development and ood and agriculture departments to issue suitable instructions to the appointing authorities concerned that in making appointments to posts in the Textile and civil supplies departments in the agency areas preference should be given to qualified members of the agency tribes. Relevant extracts will be sent to the departments of the secretariat concerned for necessary action.
